Prince Giuliano de Medici is on a crazed cyber attack and he is commanding an army of Satanists.

The Medici family are a well known Black Nobility involved in the Vatican, banking, medical industry, secret societies, and Zionism. They are leaders in the global banking mafia and they are relentless and sadistic. Many of the Florentine noble families are ancestors of Assyro-Chaldeans that practiced witchcraft and alchemy and then migrated into Florence during ancient Rome. During the Moorish invasion more of these clans migrated into Florence and brought large amounts of gold with them. Napoleon Bonaparte was the first political Zionist who proclaimed for all "Jews" to settle in Jerusalem. Zionism is really about domination. Zion is a hill in Jerusalem which is considered a holy land by Christians, Jews, and Muslims. Zion refers to a military triumph. The Medici family were one of the wealthiest banking families in Europe for centuries. They produced 3 Popes and 2 Queens of France. The Medici and Bonaparte families are closely related and are still working together. Both of these families still exist today. Emilio Garrastazu Medici was a Brazilian dictator that established the military government in Brazil. The Brazilian Andre Cezar Medici works at the World Bank as a health economist in Washington DC today. The name Medici means medical and they have been linked with practicing sorcery. Pharmacy derives from the Greek word Pharmakeia which means sorcery and poison. The most common symbol used in medicine is the Rod of Asclepius which is of a serpent coiled around a rod similar to the Staff of Hermes. The Youtube shill PrayingMedic is a pedophile and alchemical shill for the Medicis. Hermes was known as a thief and messenger. Zachary James Carr is a member of the Cult of Hermes and a cyber terrorist involved in intellectual theft, cyber crimes, pedophilia, and occult communications through the Dark Web. The Medici family are involved in alchemical witchcraft and run the Hermetic Order of the Golden Dawn. Chic Cicero is an agent of the Medicis and he founded an American temple of the Hermetic Order of the Golden Dawn. The Medicis have a

statue of Hermes at their palace in Rome. The Medici family founded the Botanical Garden of Pisa which is the oldest botanical garden in Europe and also established the Botanical Garden of Florence. They use herbs and plants for alchemy which is about the manipulation of the human psyche and physiology. They use members of their Hermetic Order to infiltrate food and drug companies. The French Hermes-Dumas family are agents of the Medicis and own Hermes a luxury fashion company headed up by Axel Dumas. Bertrand Puech and his brother Nicholas Puech are billionaires and members of the Hermes family. The Hermes-Dumas family are worth about 30 billion. Patrick Guerrand-Hermes is another member of this family and worth about 1 billion. The Medici family of Ottajano own the Chaldean Mafia headed up by Louis Akrawi of Detroit. The Chaldean Mafia are Iraqi Catholics and known for trafficking ecstasy and operate in Israel. The Israeli Mafia are the primary manufacturers of ecstasy in the world. Ecstasy is a dangerous synthetic chemical drug used for mind control and is a form of alchemy.

The use of chemicals to manipulate the body and mind is what alchemy really is. The Merieux are a French family that own Institut Merieux which develops vaccines and studies diseases. What they really do is engineer diseases and add them into vaccines that are "intended" to prevent the diseases they create. Many vaccines admit to using live viruses. The Merieux family are agents of the House of Medici with Alain Merieux as the head and worth over 3 billion. There is a Medici Firma international investment firm with offices in the United States, Switzerland, and Australia. Medici Firma is a financial mafia that works as a shadow partner with banks like HSBC, Liechtenstein Global Trust, HNA Group, Softbank, and BlackRock. Medici Firma has a financial intelligence division used for gathering information on economies, governments, banks, and markets. Medici Firma has been secretly buying up land in the United States through their real estate division. Medici Firma is probably the most secretive investment firm on the planet and has removed information regarding its investments and business contracts since it was originally exposed. On their Medici Firma Council page on their website they have a Masonic square and compass. There is another

company called Medici Ventures which is a subsidiary of Overstock. Medici Ventures manages companies involved in online bank transfers, online security programs, and other types of online financial systems. Medici Firma and Medici Ventures are secretly controlled by the House of Medici. The Gucci family were recent billionaires with Aldo Gucci who was born in Florence, Tuscany. Gucci is still headquartered in Florence today and is headed up by the CEO Marco Bizzarri and Alessandro Michele. Gucci is now a subsidiary of Kering owned by the French billionaire Francois Pinault who is an agent of the Medici family. Francois Pinault and his family including his son Francois-Henri Pinault are worth about 30 billion. The French Pinault family owns the holding company Groupe Artemis which owns Kering and the auction house Christies with Patricia Barbizet as the CEO. Political Zionism had origins in France. The Medicis are secretly connected with many Jewish Zionists and were the owners of the Italian-Jewish East Harlem Purple Gang which worked with the Savoy owned Genovese crime family. The East Harlem Purple Gang absorbed into the Genoveses which today manages the Harlem based rap group and organized crime syndicate called the Diplomats or Dipset with members Cam'Ron, Jim Jones, Juelz Santana, and Hell Rell. Members of Dipset often wear purple and pink. P Diddy is another agent of the Medicis and Diddy is a manager of a faction of the Gay Mafia. The Medicis and Savoy have intermarried. The Medicis also owned the older Jewish Purple Gang in Detroit. The old Jewish Mafia was always mixed in with Italians. The Medicis are still infiltrated in various mafias and work with Zionist bankers like the Dreyfus family to tax them through some money laundering operations. The private bank Dreyfus Sons & Co in Switzerland paid a fine of 24 million for enabling tax evasion with their hundreds of hidden US connected accounts amounting to \$1.76 billion.

The Dreyfus family have similar ancestry as the Medici family and they are extremely wealthy. The Medici, Dreyfus, and Sassoon families are all descendants of Babylonian-Chaldeans. Baron James Sassoon covertly works with the Medicis and is the current Commercial Secretary to Treasury in the United Kingdom. It was during the Sasanian Empire when the

Chaldean Catholic Church was established. The French Dreyfus branch work as Court Factors for the House of Bonaparte which work with the Medicis. Julia Louis-Dreyfus is a very high level murderous satanic witch and she is overseen by Prince Giuliano de Medici. Pierre Dreyfus is Vice Chairman of the Swiss bank Dreyfus & Sons. Louis-Napoleon Bonaparte was the first President of France. French presidents are the heads of the Bonaparte's Legion of Honour which has many members that are billionaires and heads of major corporations and banks like Alfred Dreyfus, Pierre Louis-Dreyfus, Benoit Potier, Pierre-Andre de Chalendar, Patrick Pouyanne, Rene Obermann and Bernard Arnault who is worth tens of billions. Cosimo III de' Medici the last Medici Grand Duke of Tuscany bankrupted the state bank right after receiving large deposits of gold from the Elector of Bavaria. I believe the Medici family used this gold to finance the Jewish Rothschild family as the new top bankers as an attempt to deflect away from Christian royals and nobles and especially north Italian bankers like the Medicis. The Rothschild family have worked with the House of Medici with Carl Mayer von Rothschild who ran the Naples Bank financing the House of Medici and working with Prince Luigi de Medici of Ottajano. The Medici family developed the Double-Entry bookkeeping system used for tracking debts. Current members of these crime families include Prince Ottaviano de Medici, Prince Giuliano de Medici, Prince Lorenzo de Medici-Tornaquinci-Foscari and of the House of Bonaparte there is Prince Charles Napoleon Bonaparte, and Prince Jean Christophe Napoleon Bonaparte. Prince Jean Christophe worked for Morgan Stanley and Advent International which is a major buy out firm with assets estimated at over 30 billion. There is another Prince Lorenzo de Medici in Italy as well. There seems to be 4 different Prince Lorenzo de Medicis today. Princess Elisabetta de Medici works with a ruthless and diseased child murdering rapist witch named Elizabeth Martello. The Medici family are Rome's tax collectors and they oversee the IRS through Rome's network of power. David Kautter was Jesuit educated from Georgetown Law and is Commissioner of the IRS. The Federal Reserve Bank of New York shares a similar architectural design with the Palazzo Medici-Riccardi in Florence. The Medici family command their agents in the IRS to financially

persecute people that Rome has declared as heretics. Not only is income tax immoral but the IRS make up debts out of thin air and they persecute people based on these made up or inflated debts. Prince Ottaviano de Medici is the head of this evil bloodline and a ruthless tyrant.

Prince Ottaviano de Medici dei Toscana is a top international banking authority and a top owner of the Chaldean Mafia. They manage many Zionist bankers in New York City. The Medici family are relentlessly evil, depraved, and sadistic. They spew out relentless slander and lies because they are angry genetic sub humans. They are one of the top five most evil bloodlines to ever exist. They need to be completely exterminated and the process of the extermination of the Medicis has already started.

Prince Ottaviano with the deceased Prince Giovanni Battista de Medici the father of Prince Giuliano de Medici dei Ottajano the Duke of Sarno and his brothers appear to be named Prince Lorenzo and Prince Alessandro. Prince Ottaviano is either Prince Giuliano's cousin or uncle. Prince Giuliano de Medici is indescribably wicked, depraved, and murderous. Prince Giuliano loves to send me death threats. He is a demonic idiot who is going to end up like his father. I do not have an image of him. He is one of the biggest murderers in Italy and claims to do 40 days of continual sacrifices. Prince Giuliano does the dirty work for the higher level Black Nobility and his father was a Knight of Malta which is a subservient position. Prince Giuliano manages the singer Prince who faked his death and Prince is an extremely depraved transvestite that rapes, tortures, murders, and cannibalizes men, women and children. Prince is disgustingly evil. Prince Giuliano stalked me on Fearless Blogging a site that has been shut down and bragged about burning a woman alive and made posts saying "Can Zeus save her." Prince Giuliano blames me for his father's death and Julia Louis-Dreyfus also blames me for her father's

death and they blame me because I exposed these families right before these deaths occurred. The Medicis are clear examples of genetic sub humans and because of their insecurity over being genetic sub humans they are highly blasphemous.

The **Princes of Ottajano** (or Ottaiano) are a cadet branch of the ducal dynasty of Tuscany. Along with the Veronese Medici Counts of Caprara, and Gavardo, they make up the last and closest descendants to the **main line** of the **House of Medici**.

The branch is still in existence under the **current head, Giuliano de' Medici di Toscana di Ottajano**, who holds the titles of **15th Prince of Ottajano** and **12th Duke of Sarno**. [7] The Princes of Ottaiano and the Veronese Counts have common ancestry with most royal monarchies, and the branches are the collateral branch of the House of Medici.[8] In the modern day, the resulting House of Medici has **still maintained close ties with the remains of the House of Bonaparte**. Prince Rogers Nelson is an agent of the Medici family and he faked his death and has been hiding out on islands sacrificing children. I have heard he might be in Costa Rica although its likely he has moved somewhere else since then. Prince is a blatant transvestite who wants to be a woman with male genitals. The occult are obsessed with this. That is why they worship Baphomet a goat faced hermaphrodite. In the ancient Greek myth Hermes and Aphrodite created Hermaphroditus and that is where the term hermaphrodite derives from. The Medici family are the head of the Cult of Hermes. Prince is a major child murderer and cannibal. Prince has raped, murdered, and cannibalized countless little boys and girls. He is a sick freak and that is why he faked his death. He might be somewhere in the French Polynesian Islands or somewhere in South America. Prince is Prince Giuliano de Medici's primary shield. The Medici family serve the Massimo-Brancaccios and their agent was Massimo Brancaccio a drag queen and singer from Italy and its possible he also faked his death. The royals and nobles used to dress like drag queens wearing woman's wigs and tight pants.

Cosimo II de' Medici the Grand Duke of Tuscany wearing a dress and tights. Many of the male royals and nobles dressed like women.

Prince Lorenzo de Medici was born in Milan and he has international residences including a current residence in Portugal. The Medici bloodline really came into Europe during the Moorish invasion and they originally settled in Portugal. Prince Lorenzo works closely with the Colonna, Lucchesi-Palli, Frescobaldi, Albizzi, and Antinori noble branches of Tuscany. Prince Lorenzo is extremely arrogant and murderous and he claims to be the head of the Black Nobility.

Lorenzo de 'Medici is a direct descendant of the Medici family, one of the most important in history, whose patronage fostered the creation of the greatest works of the Renaissance, was born in Milan (Italy) and spent his childhood in Switzerland. He has lived in the United States and several European countries, currently residing in Portugal

Princess Elisabetta de Medici-Tornaquinci-Foscari with her son Prince Lorenzo de Medici-Tornaquinci-Foscari and they are the purest evil that there is. They have been paying their friends to pose as them for a defense. An old female gang stalker and child murdering satanic witch named Elizabeth Martello works under the Princess Elisabetta de Medici. She is one of the most evil females on the planet and she is the biggest demonic disease on the planet. Elizabeth Martello is a psychotic and terroristic hate filled witch and she terrorizes my mother constantly. This witch wont leave my mother alone. She is ruthless. She married into the Martello family which are the direct descendants of the Martelli family of Florence which were loyalists to the Medicis and married with the Medicis with Princess Camilla Martelli the wife of Grand Duke

Cosimo I de Medici. Her husband Richard Martello is a greedy and arrogant devil that serves George Walker Bush and Evelyn de Rothschild. The Martellos are associates of several Italian crime families in New England and are involved in financing gang stalking, money laundering, tax evasion, and trafficking children. They operate in Connecticut and New York.
